

## **Security Technician**

CooperCraft Communications, Inc., is looking for a highly motivated, responsible, dedicated, and experienced low voltage security technician that has a proven record of integrity. Applicant must have a minimum of 3 years field experience in installation, programming, and servicing door access control systems and analog and IP CCTV systems. Familiarity with S2 Security, AMAG, Avigilon, and Brivo door access control systems is a plus. Familiarity with eXacqVision Technologies, Milestone, Avigilon, Axis, Hikvision, and Honeywell CCTV systems is a plus. Experience with intrusion alarm systems and fire alarm systems is a plus.

Experience with fiber optic cabling, termination, and testing is a plus.

Applicant must be able to communicate with customers in a professional manner, both verbally and written.

Applicant must be proficient in leading onsite projects and providing direction to helper technicians.

Applicant must be proficient in performing installation and programming tasks required for system project completion.

Applicant must be proficient in installation, termination, and testing of low voltage copper category cabling.

Applicant must have a basic understanding of networking.

Applicant must be willing to travel. Travel is not limited to the local area.
